

# Applicant Tracking Software Your Hiring Teams Will Love

## Autopaychecks HCM Recruiter

On average, recruiters spend 63% of their time on the phone and about 5-7 seconds looking at individual resumes, which means the ability to multitask and screen candidates quickly is crucial. Hiring doesn't have to be time-consuming and labor intensive. With Autopaychecks HCM Recruiter, you can toss out paper files and stacks of resumes, plus you'll be able to:

- Track applicant information in one place
- Schedule phone and video interviews
- Communicate with applicants via email phone and much more!

The information listed below provides more information on Autopaychecks HCM Recruiter's feature offering along with pricing. For questions, please contact Colleen Youpel at [colleeny@applicant-tracking.com](mailto:colleeny@applicant-tracking.com).

## Amazing built-in features that make hiring a snap

### Customized hiring, your way

- Enhanced visibility across your organization
- Unlimited templates
- One-click job and offer letter approvals
- Branded applicant messages every step of the way

### Collaborative Hiring

- Unlimited users means unlimited potential to save time across your organization on hiring tasks
- Control access at the user level, giving your team access to exactly what they need
- Enable managers to make the best hire, every time

### Automated Screening

- **Form Builder™**, a custom application form generator that automates the prescreening process, leaving you with the best candidates for your position
- **Skill Survey**, reference checks that make the process of providing professional references quick and easy for you, your applicants, and their references
- **Video Interviewing**, a prescreening tool that lets you review up to 10x applicants in the span of a single traditional phone screen

## Pricing

Job pricing will be as follows:

- The first two jobs will be priced at \$20 per job, per month.
- All following jobs will be priced at a reduced cost, \$15 per job, per month.
