# Target Passive Candidates With Fourth Recruit

With the unemployment rate at a 50-year low of **3.4 percent**, hiring managers need to be competitive in order to acquire qualified candidates. Targeting passive candidates is a great way to attract new talent since they are usually open to better opportunities. BizRun ATS makes it easy to claim back time in your hiring process, reduce overhead costs, and target skilled passive candidates with Applicant Pooling and a resume database through our partnership with Resume-Library.
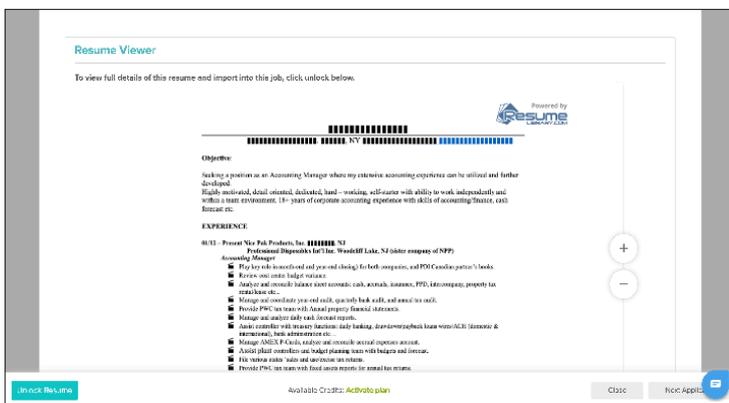

Applicant Pooling

Benefits of Applicant Pooling include:

- Easily **search for** and **add applicants** to a job via a company-wide applicant pool
- Search for applicants by **geographic area**
- **Decrease** your cost and time to hire by activating your existing applicant database

Resume-Library

Benefits of the Resume-Library Integration include:

- Source highly qualified candidates for **hard-to-fill positions**
- **Fully integrated** into our platform, you can easily search for and communicate with applicants
- Browse a pool of over **13 million active U.S. resumes**

Resume-Library Pricing

We have affordable plan options to help meet your hiring needs.
