

Accelerate your Hiring with a Guided Setup

"I want to thank you for all your assistance getting us up and running. It is going to make a huge difference with our external recruiting process."

- Chris, HR Generalist

Don't lose another second on software setup – let us do the work. **The Hire on the GO** Guided Setup service provides customized implementation that's a no brainer. It's the fastest path to your best new hire.

1

Develop Your Plan:

We'll assign an expert customer success manager to schedule an initial discovery call to understand your specific needs, and put together a clear implementation plan.

2

Implementation:

We will handle everything from getting your logo uploaded to creating job postings and setting up your custom workflow. Then we'll walk you through it, so that every user hits the ground running.

3

Start Hiring:

Your system will be up and fully operational, and your people trained. And, should you need additional support, we are just a call away.

Ensure the highest ROI for your recruiting efforts by letting our experts guide you through the setup process. We've worked with 1000s of managers and have a few pro moves that will get your hiring humming.

Now that's HIRING HAPPINESS.
